

4~20 mA Transmitter

Autento provides a stable and accurate means of measuring both temperature and humidity for the ambient environment. The combination of temperature/humidity sensor and 4~20mA transmitter has been designed to meet those applications which require precise measurement of temperature and humidity. Users can specify the type of sensor (thermistor, RTD) they require for the direct temperature output

FEATURES

- Two wire signal, DC 9~36V
- High accuracy $\pm 0.1\%$
- Long term stability
- Excellent repeatability
- Pluggable terminal block for easy installation

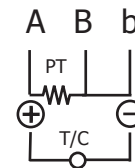

APPLICATIONS

- Food Industry
- Hospital/Surgical Suites
- Pharmaceutical
- Environmental Chamber
- Greenhouses
- HVAC
- Paper Mill
- Leather & Textiles
- Museum
- PCB Manufacturer
- Plastic Manufacturer
- Contamination Control

CONNECTION

\oplus \ominus
 (4~20mA)

TYPE SELECTION

T/C

- K Pt100 Ω
